

SAFC Biosciences Seminar Invite:

“Modern Challenges on Cell Culture Processes”

At The Wellcome Trust Conference Centre, Hinxton, Cambridge, UK
April 30th, 2009

Dear Colleague

You are cordially invited to join our UK Cell Culture Seminar! This one-day event will focus on presenting key technologies and services for the Biopharmaceutical cell culture market:

- 08:30** Registration
- 09:15** **Welcome by the Chairman**
Dr Paul Varley - Vice President of Development, MedImmune
- 09:30** **Biological Product Development: Regulatory Update**
Dr Martin Wisher - Senior Scientific Director, BioReliance
- 10:30** Break
- 11:00** **Increasing Product Titre Through Media and Feed Optimisation**
Hikmat Bushnaq-Josting - Technical Manager, SAFC Biosciences
- 12:00** **Current Industry Challenges in Downstream Processing**
Dr Brendan Fish - Director of Bioprocess Sciences, MedImmune
- 13:00** Lunch & Networking
- 14:00** **Solutions in Bioprocessing**
John Moys - Head of Technical Support, North Europe, Sartorius Stedim Biotech
- 15:00** **Increasing Process Efficiency Utilising Disposables in Downstream Processing**
Ray Baldwin - Business Development Manager: Biodisposables, SAFC Biosciences
- 16:00** Closing

Use the time to network with leading exponents in their field and exchange experiences with your colleagues from the industry.
